Welcome to COMP1521!

(aka the best course)

Admin

- General questions that others can benefit from should go to the course forum
- Contacting me:
  - s.schreyer@unsw.edu.au
- Any general questions?

Intros!

- Name
- Degree + Year
- Fun fact!
  - If you don’t want to do a fun fact, how about:
  - Something you did on your holidays?
  - Your favourite food?
  - Pineapple on pizza?

What do you remember from 1511/1911?

Anything you don’t remember so well?

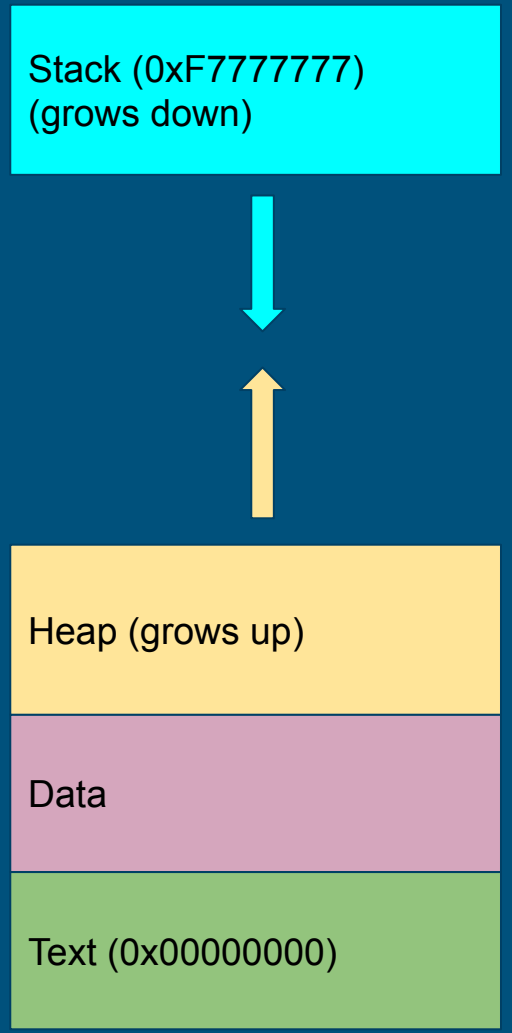
- Pointers?
- Strings?
- Malloc?

Don’t need to know linked lists for this course :)

Time for content!

What are the heap and the stack?

- Stack is where local variables from functions are stored
- Heap is where ‘malloced’ variables are stored

What about global vars?


- They’re stored in the data section!
